

FOR IMMEDIATE RELEASE

Innovation Wave Games, a developer of immersive tabletop games, focusing on innovation, tactical depth, and thematic storytelling, announces "*The Graveyard Bar*," a strategic tabletop game that challenges players to navigate a world of spirits, strategy, and social intrigue.

Marketed under the motto "a game like life and death," *The Graveyard Bar* offers innovative mechanics and strategy, employs a Eurogame approach, prioritizes player choice over pure luck, and minimizes direct conflict except when competing for limited resources.

The gameplay is built on four core pillars:

- ✂ Drafting: Players compete for limited resources to gather specific Ghost cards to gain an advantage.
- ✂ Combo-building: Success requires strategic forward-thinking to build combinations that maximize bounty.
- ✂ Push-your-luck: Players are incentivized to take opportunistic risks in final minigames, balancing the potential for high rewards against the risk of losing earned coins.
- ✂ Social Deduction: Players must gain insights into rivals' intentions by observing tactical actions displayed on their personal Hunter Boards.

The Graveyard Bar is quick to learn and easy to play, yet offers complex strategic depth suitable for both beginners and advanced players. Its interactive design keeps players engaged through trading and goal-oriented cooperation. Unique to this title is its "bar environment" concept, allowing players to bring the atmosphere of the Graveyard Bar anywhere, from the office to a picnic. Furthermore, the game features an open design that encourages players to actively participate in developing additional rules and moves.
